Merge®

Laminate (edge): Whitestone (Muslin) Paint: Silver Natural veneer: Burnished Cherry Seating upholstery: Maharam Milestone Daffodil Frame finish: Silver

## Where people and projects come together.

The comprehensive collection of Merge tables makes sense anywhere in the office because they adapt to all the different ways you work. Available in a variety of functional tabletop shapes, heights, finishes, and leg styles, Merge tables are the perfect solution for public areas, active café spaces, informal teaming areas, private offices, and conference rooms. They turn overflow space into meeting space and quickly expand or contract to make teamwork possible.

X-base tables accommodate a variety of uses and can be specified with casters for easy relocation. Beautiful surface finishes, including veneer tops and polished aluminum legs, allow you to create a look that complements your office environment.

Seated-height disc-base tables create secondary work areas adjacent to primary workspaces and allow more legroom. Standing-height disc-base tables are a smart solution for cafés or huddle spaces.

## Versatility for an ever-changing environment.

Merge tables expand, raise, lower, and respond to the demands of your busy day. Lift & Release™ tables are designed to adapt as quickly as workstyles change. At seated height, they can be used as a primary worksurface or to extend your desktop space. Then quickly raise to standing height for impromptu team meetings or for a change in posture.

In workstations and private offices, height-adjustable Adaptive tables can be docked against the worksurface or stowed underneath until they're needed. Simply roll them out for overflow projects or to turn your workspace into meeting space.

### Lift & Release Tables

An internal pin mechanism makes it easy to adjust both legs on one end at the same time. Simply lift and release the lever, and the pin automatically sets the table height from 27" to 36".

### Adaptive Tables

A dropleaf top and height adjustability allow the table to dock against the main worksurface.

Standard tables with or without casters are available in multiple tabletop shapes.

**Panel fabric:** Etch Engrave **Laminate and edge:** Beigewood, Loft **Paint:** Loft, Platinum Metallic, Silver  
**Seating upholstery:** Burst Slate, Perennial Liliium **Mesh carrier and mesh:** Black **Frame finish:** Black

# Get the most out of your meetings.

With Merge, it's easy to create functional, hardworking meeting rooms that help you get work done. The ingenious Power Bay™ table is designed with a slide-open top that reveals hidden power and storage space in the center of the table. It's perfect for plugging in and storing Polycom® equipment, projectors, or computers to keep the tabletop free of clutter.

Choose spacious worksurfaces with or without power in a variety of shapes with a variety of leg styles to accommodate large groups or smaller gatherings.

## Power

Outlets and technology sources are underneath the tabletop.

## Hide

Close the tabletop to manage cords and reduce clutter.

## Store

Equipment, cables, and cords can be hidden when not in use.

Laminate (edge): Frosty White (White) Paint: Silver Seating shells: Surf Frame finish: Silver

Another option to stay connected is pop-up power.
